June 2019 - Oct 2022

RNS Pre-University College, Bengaluru

Physics | Chemistry | Mathematics | Electronics (Percentage: 82.83 / 100)

Mar 2017 - Mar 2019

Technical Skills

Programming Languages: Java, JavaScript, Typescript

Libraries / Frameworks: Tailwindcss, React.js

Tools / Platforms: Git, GitHub, Figma, Vs code, Appwrite, Netlify and Vercel

Databases: MongoDB

Projects

Post-Pulse | React.js, Redux Tailwindcss, JavaScript and Appwrite | [Link](#) | [GitHub](#)

- Post-Pulse is a user-friendly blogging platform for writing, editing, and publishing articles with cover images.
- It offers a seamless and creative experience, allowing users to focus on sharing their thoughts and stories.
- All the articles posted by the user, along with the images, are stored in the Appwrite backend.

Dhi – An Intellect | React.js, Tailwindcss, React-Icons and Google's Generative AI | [Link](#) | [GitHub](#)

- "Dhi - An Intellect" is an AI-powered application, similar to Google Gemini.
- It is built with React and JavaScript, using Google Gemini's API services.

The Hangman (Game) | React.js and Typescript | [Link](#) | [GitHub](#)

- The user will be informed of the number of letters in the word they need to guess. The user has up to 6 incorrect guesses, allowed to figure out the correct letters and form the word.
 - If the user makes 6 incorrect guesses, they lose the game.
-

Extra-curricular activities

- Stock Trading
 - Gaming (BGMI, Chess)
-

Interests

- Web3 Technologies
- Artificial Intelligence
